

RECEIVED

NOV 24 2003

Department of Water Resources

Memorandum

Date: November 19, 2003

To: Tim Luke, State Office

From: Bob Foster, Salmon Office

Re: Agency Creek

I have enclosed Jerry Eastman's response to items (3), (4), and (6) from the October 30, 2003 letter from NMFS. Mr. Eastman also stated that the Ross Goddard diversion we had spoke about has not been used for at least five years due to the condition of the control structure. Mr. Eastman stated that Goddard had not called for Agency creek water and had been using the water right(s) from the Lemhi River and the L-32 diversion.

Mr. Eastman said that the Goddard diversion structure has been repaired or replaced and is now functional if the Agency Creek water is requested this next irrigation season.
